VINO

Sauvignon Blanc

- Dry white wine -

Grape varieties:

- Sauvignon blanc

Origin: Erdevik, Fruška Gora

Serving temperature: 10-12°C

About the vine

The wine has a greenish-yellow color and a fruity aroma, with a full and fresh structure, featuring fruit-forward notes and a subtle herbal finish on the palate.

Food pairings include dishes and salads based on white meat and white fish.

We produce around 1,000 bottles of Sauvignon Blanc per year.

This is the last variety we planted, and the wine has been on the market for only a few years. It is an exceptionally drinkable white wine with a pronounced varietal character.
